<u>Ordre d'importation des SQL et placement dans le server.cfg</u>

(En fonction des dépendances ESX) (V1.0.2)

<u>Note importante :</u>

- Il est important d'ajouter `set es_enableCustomData 1` dans <u>la partie supérieure</u> de votre server.cfg
- Pour un fonctionnement correct, `essentialmode` doit démarrer avant `esplugin_mysql`, `MySQL-Async` doit démarrer avant `essentialmode`.

Les plugins tagués -SQL contiennent une base de données à importer.

1. essentialmode + es_admin2 => https://forum.fivem.net/t/release-essentialmode-base/3665

```
start essentialmode
start es_admin2
```

2. esplugin_mysql-SQL https://forum.fivem.net/t/release-essentialmode-base/3665

```
start esplugin_mysql
```

3. es_extended-SQL https://github.com/ESX-Org/fxserver-es_extended

```
start es_extended

start esx_menu_default
start esx_menu_list
start esx_menu_dialog
```

4. esx_addonaccount-SQL https://github.com/ESX-Org/fxserver-esx_addonaccount

```
start esx_addonaccount
```

5. esx_society-SQL https://github.com/ESX-Org/fxserver-esx_society

```
start esx_society
```

6. esx_phone-SQL https://github.com/ESX-Org/fxserver-esx_phone

```
start esx_phone
```

7. esx_jobs-SQL https://github.com/ESX-Org/fxserver-esx_jobs

```
start esx_jobs
```

8. esx_addoninventory-SQL https://github.com/ESX-Org/fxserver-esx_addoninventory

```
start esx_addoninventory
```

9. esx_ambulancejob-SQL https://github.com/ESX-Org/fxserver-esx_ambulancejob

```
start baseevents
start esx_ambulancejob
```

10. esx_bankerjob-SQL https://github.com/ESX-Org/fxserver-esx_bankerjob

```
start esx_bankerjob
```

11. esx_billing-SQL https://github.com/ESX-Org/fxserver-esx_billing

```
start esx_billing
```

12. esx_vehicleshop-SQL https://github.com/ESX-Org/fxserver-esx_vehicleshop

```
start esx_vehicleshop
```

13. esx_garage-SQL https://github.com/ESX-Org/fxserver-esx_garage

```
start esx_garage
```

14. esx_taxijob-SQL https://github.com/ESX-Org/fxserver-esx_taxijob

```
start esx_taxijob
```

15. esx_status-SQL https://github.com/ESX-Org/fxserver-esx_status

```
start esx_status
```

16. esx_basicneeds-SQL https://github.com/ESX-Org/fxserver-esx_basicneeds

```
start esx_basicneeds
```

17. esx_datastore-SQL https://github.com/ESX-Org/fxserver-esx_datastore

```
start esx_datastore
```

18. esx_mask-SQL https://github.com/ESX-Org/fxserver-esx_mask

```
start baseevents (attention, déjà ajouté avec esx_ambulancejob, si la resource est installée)
start esx_mask
```

19. esx_shops-SQL https://github.com/ESX-Org/fxserver-esx_shops

```
start esx_shops
```

20. esx_weashops-SQL https://github.com/ESX-Org/fxserver-esx_weashops

```
start esx_weashops
```

21. esx_property-SQL https://github.com/ESX-Org/fxserver-esx_property

```
start esx_property
```

22. esx_offices-SQL La base esx_offices-SQL se trouve dans le dossier esx_property.

23. esx_realestateagentjob-SQL https://github.com/ESX-Org/fxserver-esx_realestateagentjob

```
start esx_realestateagentjob
```

24. esx_policejob-SQL https://github.com/ESX-Org/fxserver-esx_policejob

```
start esx_policejob
```

25. esx_drugs-SQL https://github.com/ESX-Org/fxserver-esx_drugs

```
start esx_drugs
```

26. esx_mecanojob-SQL https://github.com/ESX-Org/fxserver-esx_mecanojob

```
start esx_mecanojob
```

27. esx_identity-SQL https://github.com/ESX-Org/esx_identity

```
start esx_identity
```

28. esx_whitelist-SQL https://github.com/ESX-Org/esx_whitelist

```
start esx_whitelist
```

29. esx_license-SQL https://github.com/ESX-Org/esx_license

```
start esx_license
```

30. esx_dmvschool-SQL https://github.com/ESX-Org/esx_dmvschool

```
start esx_dmvschool
```

31. esx_lscustom https://github.com/ESX-Org/fxserver-esx_lscustom

```
start esx_lscustom
```

32. esx_joblisting https://github.com/ESX-Org/fxserver-esx_joblisting

```
start esx_joblisting
```

33. skinchanger https://github.com/ESX-Org/fxserver-skinchanger

```
start skinchanger
```

34. esx_skin https://github.com/ESX-Org/fxserver-esx_skin

```
start esx_skin
```

35. `esx_clotheshop` https://github.com/ESX-Org/fxserver-esx_clotheshop

```
start esx_clotheshop
```

36. `cron` https://github.com/ESX-Org/fxserver-cron

```
start cron
```

37. `es_camera` https://github.com/ESX-Org/fxserver-es_camera

```
start es_camera
```

38. `instance` https://github.com/ESX-Org/fxserver-instance

```
start instance
```

39. `esx_service` https://github.com/ESX-Org/fxserver-esx_service

```
start esx_service
```

40. `esx_holdup` https://github.com/ESX-Org/fxserver_esx_holdup

```
start esx_holdup
```

41. `esx_atm` https://github.com/ESX-Org/fxserver-esx_atm

```
start esx_atm
```

42. `esx_barbershop` https://github.com/ESX-Org/fxserver-esx_barbershop

```
start esx_barbershop
```

43. `esx_optionalneeds` https://github.com/ESX-Org/fxserver-esx_optionalneeds

```
start esx_optionalneeds
```

44. esx_animations https://github.com/ESX-Org/fxserver-esx_animations

```
start esx_animations
```

45. esx_sit https://github.com/ESX-Org/fxserver-esx_sit

```
start esx_sit
```

46. esx_voice https://github.com/ESX-Org/esx_voice

```
start esx_voice
```

(Si vous avez le client_base, vous avez déjà limiteur de portée de voix!, faites un choix ☺)

Ajoutez également :

esx_menu_default https://github.com/ESX-Org/fxserver-esx_menu_default
esx_menu_dialog https://github.com/ESX-Org/fxserver-esx_menu_dialog
esx_menu_list https://github.com/ESX-Org/fxserver-esx_menu_list

Les « start » ont été ajoutés lorsque vous avez ajouté es_extended

async https://github.com/ESX-Org/fxserver-async

Il n'est pas nécessaire d'ajouter un « start » pour async.

Ajouter également `start baseevents`
